Colorado Advisory Council for Persons with Disabilities

Annual Report for 2012-13
State Fiscal Year: July 1, 2012 – June 30, 2013
The Colorado Advisory Council for Persons with Disabilities is pleased to present our fourth annual report as required by C.R.S. 24-45.5-101 CONCERNING CODIFICATION OF THE ADVISORY COUNCIL FOR PERSONS WITH DISABILITIES.

This report includes a summary record of activities of the Colorado Advisory Council for Persons with Disabilities from July 1, 2012 through June 30, 2013. We have focused a great deal this year on strengthening our role in the broader disability community and been guided by our statutes and our on-going legislative responsibilities. This work includes:

• Educating communities and constituents on HB10-1019 – Parking Privileges for People with Disabilities;
• Participating the License Plate Auction Committee;
• Reviewing legislation and policy that impacts Coloradans with disabilities;
• Strengthening our understanding of the state of Colorado as it relates to implementing Title-II of the ADA and the Olmstead Decision; and,
• Developing stronger connections to appropriate state agencies, personnel, and other state disability councils in order facilitate a more efficient system of implementing these important civil rights statutes and completing our work.

As we look ahead to our next year, we are optimistic about our capacity to fulfill our responsibilities more innovatively. We hope you will be a part of this innovation. We are also looking for creative ways to grow the work of the Council, especially around employment. This seems apropos given all the work done by Governor Markell and the NGA this past year. This would greatly benefit the economy, the administration and the citizens of Colorado!

Respectfully,
Tom D. Muniz, Chair
The Colorado Advisory Council for Persons with Disabilities was established by C.R.S. 24-45.5-101, Concerning Codification of the Advisory Council for Persons with Disabilities, and Making an Appropriation Therefore and enacted July 1, 2008. Activities include:

a) Coordinating with state boards, advisory councils, and commissions established for or related to persons with disabilities;

b) Advising the Governor and General Assembly on legislation and state policy affecting persons with disabilities;

c) Issuing an annual report to the Governor and General Assembly on the State’s programs, services, and policies affecting and addressing persons with disabilities;

d) Monitoring the State’s implementation of Title II for the federal “Americans with Disabilities Act of 1990”, 42U.S.C. 12101 ET SEQ., as amended, including oversight pursuant to Olmstead V. L.C. and E.W. 527th U.S. 581 (1999);

e) Acting as an additional entry point for public grievances regarding disability issues and referring those grievances to the appropriate state agency or personnel; and

f) Developing procedures relating to the Council’s internal operations.

The Council replaces the Governor’s Advisory Council for Persons with Disabilities that was established by executive order in 1988 by Governor Roy Romer.

Background & History

• **Our Mission:** To serve in an advisory capacity to ensure the equality of opportunity, independent living, and economic self-sufficiency for all of the state’s citizens, including persons with disabilities, to the Governor’s Office and General Assembly on issues relating to the need, problems and other concerns of people with disabilities.

d) Monitoring of State’s Implementation of Title II of the ADA & Olmstead Act

Colorado’s Olmstead implementation as of September 2012

Colorado spends slightly more than half of its total budget on (Home and Community-Based Services (HCBS) programs for individuals with disabilities. From 2008 and 2012

- Colorado made some progress increasing the number of individuals served in HCBS programs or through waivers, including increasing the number of people served by HCBS at the nursing home level of care by more than 5,000.
- The state increased the number of individuals served by the Community Mental Health Supports waiver by almost 450 during the same time period.

Colorado has 15 different HCBS programs, including five for children with various types of disabilities and two specifically for individuals with (intellectual disabilities) ID.

However, Colorado served 14,545 individuals in nursing home facilities (NFs) in 2008 and 14,461 individuals in 2012 – a decrease of only 84 people. Further, Colorado actually increased the number of individuals served in ICF/MR facilities by 52 people.

d) Monitoring of State’s Implementation of Title II of the ADA & Olmstead Act

Colorado’s Olmstead implementation vision…
• Colorado believes the following recommendations would make it easier to effectively implement Olmstead

Olmstead’s integration mandate:
• Affordable and accessible housing is a major barrier to assisting individuals to transition from nursing homes and other types of institutions. Increasing access to vouchers and other subsidized housing options for people with disabilities would greatly enhance Colorado’s ability to integrate people in the community.

• The 811 Application that Colorado submitted to HUD in July is for an 811 demonstration program that requires that only 25 percent of the units in a building be allocated to people with disabilities and does not tie services directly to the units that are subsidized. These new requirements promote community integration and should be adopted for all future Section 811 funding opportunities.

• Money Follows the Person (MFP) is a great opportunity for states to build their infrastructure for transitioning clients from institutional placement to their own home. However in the law that authorizes MFP, patients of psychiatric hospitals are not eligible to receive MFP services unless they transition to a nursing home first. For some clients, this requirement to transition from one institution to another does not seem to be aligned with the Olmstead decision. For those clients where it may make sense for a short-stay in a nursing home before they return to the community, the Medicaid rules around medical necessity for nursing home placement creates a barrier for some of these clients in the psychiatric hospitals to move to a less restrictive environment. In many cases the transition process for people with mental illness may need to follow a step-down process from a restrictive environment to a less restrictive environment and finally to the least restrictive setting.

• The law authorizing MFP also have restrictions on housing that prevent clients from discharging to most assisted living facilities or other secure arrangements that may be necessary for transitioning a nursing home resident with dementia into a less restrictive environment that is secure and provides supervision. Consequently, states have been challenged with transitioning clients with dementia through MFP.
d) Monitoring of State’s Implementation of Title II of the ADA & Olmstead Act

• To support the client’s preparation for transition, some of the HCBS services should start prior to the transition, such as case management or behavioral health support, or be completed prior to the transition, such as home modifications. Due to Federal Rules, these services cannot be reimbursed until after the client has transitioned. Consequently, the local agencies that assist individuals with transitioning are expected to cover the costs upfront and bill Medicaid retroactively. For Colorado’s local service provider agencies, covering these costs upfront presents a financial burden. Greater flexibility in allowing overlap of essential HCBS pre-transition services while the client is still in the nursing home or other type of institution would make it easier to comply with the Olmstead mandate.

• Colorado was not eligible for the Balancing Incentives Payment Program (BIP) because the state’s investments in HCBS exceeded the eligibility threshold for the program. BIP is a great opportunity that encourages states to create a more customer friendly entry point system for LTSS, establish a conflict-free case management system and develop a universal assessment for LTSS eligibility and service planning. Many states need to do this fundamental work, including Colorado, to create more responsive, person-centered LTSS systems that provide services in the most appropriate settings based on the clients’ choices and needs. Because changing these entrenched systems will be a political, lengthy process at the state level, the Federal government might consider creating more opportunities to encourage more states to change their systems as required in the BIP.

• The transition process requires careful planning and coordination by the client, family, Medicaid case managers, housing authorities, service providers and other community agencies that provide non-Medicaid supports. The Federal and state rules, regulations and funding streams create obstacles in the transition process or fragment the process. For example, HIPPA and privacy laws/regulations concerning mental health data may create real and perceived barriers to coordinating or arranging community resources. Other areas that create obstacles include multiple application processes, eligibility restrictions and documentation requirements when many clients in institutional placement do not have documentation. A Federal inter-agency regulatory review to identify and eliminate barriers or regulatory conflicts that create unnecessary barriers for clients who wish to transition may assist states in supporting transitions from institutional placement.
e) Public Entry Point For Grievances And Issues For Persons With Disabilities

- Maintained phone lines (303-866-5816 and 888-887-9135) for messages only to receive citizen comments, feedback, and grievances
  - Dialogued with individual regarding issues surrounding persons with disabilities within the criminal justice system, housing, healthcare, employment, emergency disaster communications, and civil rights
- Received an average 10 calls per month
- Referrals to: Rocky Mountain ADA Center, The Legal Center for People with Disabilities and Older Persons, The Client Assistance Program, Social Security Administration, Independent Living Centers, Department of Motor Vehicles, equipment vendors, handicapped parking issues, housing issues
f) Procedures for Council Internal Operations

- Monthly meeting scheduled and held the 2nd Tuesday of the month from 1pm-4pm at the Arc Thrift Corporate Office, located at 12345 W. Alameda Parkway, Lakewood, CO 80228.
  - The following individuals were guests at our meetings and/or provided informational presentations:

Committee Reports continued

HB 10-1019 CONCERNING PARKING PRIVILEGES FOR PEOPLE WITH DISABILITIES, AND MAKING AN APPROPRIATION THEREFOR.

Challenges

• To date the funding source (Disabled Parking Education and Enforcement Fund C.R.S. 42-1-226) created with HB10-1019 for implementation and ongoing efforts with persons with disabilities has received less than $900.00 to fund the requirements of HB10-1019. Cities and Municipalities are not willing to share the fine dollars with the State, which does not allow for complete implementation of the program statewide.

  • HB10-1019 authorized 0.5 FTE to the Council for Persons with Disabilities for educational and outreach efforts as well as a 0.5 FTE to be placed in Department of Revenue, Division of Motor Vehicles. These FTE have not been filled because the funding is not available. Costs, as outlined below, continue to take up any available funding. As of June 2013, the Division of Motor Vehicles is owed more than $180,000 in additional costs for running the program.

  • Requirements on the design and features of the placards required a different type of placard material then previously used. New placard material cost is $0.05 more than the previous material raising the per placard material fee from $0.27 to $0.32.

  • Current issued license plate year tab was insufficient to adhere to placard material. Per placard validation tab cost is $0.15.

  • Issuance of persons with disabilities placards and plates has increased 2.30% since the effective date of HB10-1019.

    • Increased manufacturing cost projections are below:
      • FY’ 13 - $42,343.96
      • FY’ 14 - $45,627.05

  • Updates to the Model Traffic Code (MTC) have been completed by Colorado Department of Transportation.

HB 10-1019 CONCERNING PARKING PRIVILEGES FOR PEOPLE WITH DISABILITIES, AND MAKING AN APPROPRIATION THEREFOR.

Challenges

• To date the funding source (Disabled Parking Education and Enforcement Fund C.R.S. 42-1-226) created with HB10-1019 for implementation and ongoing efforts with persons with disabilities has received less than $1,400.00 to fund the requirements of HB10-1019.
  – HB10-1019 authorized 0.5 FTE to the Council for Persons with Disabilities for educational and outreach efforts. This 0.5 FTE has not been filled, because the funding is not available. Costs, as outlined below, continue to take up any available funding.

      – FY’14 - $45,627.05

• Updates to the Model Traffic Code (MTC) have been completed by Colorado Department of Transportation but have not been adopted by cities or municipalities outside of Wheat Ridge and Arvada.

Wins

• Arvada will implement a city lead parking program with a total of 1 FTE. They will hire staff and after an educational period, will begin issuing tickets in October 2013.
• While Wheat Ridge adopted the MTC, they have not enforced it with a formal program like Arvada.
• Golden is patrolling the city for violators, but have not yet adopted the MTC updates.

The Council again kept expenditures under budget for the fiscal year. Effective use was made of the limited funds available, leaving enough funds late in the year to allow payment for production of a public service announcement (PSA) for television showing in the months ahead. It was a successful year for the Council but, in the months ahead, additional funding will be needed to fully meet the responsibilities of the Council, particularly as relates to its public information and education responsibilities.

Colorado Advisory Council for Persons with Disabilities, 2012-2013 Annual Report

Disability Mentoring Day

COLORADO DISABILITY MENTORING DAY 2012

• Last year’s Colorado Disability Mentoring activities saw lots of reorganization and refocusing of its mission. This year, though we didn’t see a large job one-on-one job shadow or business tour program as in years past, we did continue to provide outreach to companies and information to local communities on this initiative.

• Business Outreach:
• We provided a presentation to the Aurora Sam’s Club staff during their Disability Employment/Mentoring emphasis in October. There were 25 team members as well as supervisor and leadership there. We provided information on disability etiquette and awareness.
• We also provided technical assistance to 3 other local businesses (Bark, NREL, and Lockheed Martin) and one national sponsor restaurant (Olive Garden) on disability recruitment and company tour information. These employers were provided recruiting resources and introduced to other past DMD participants to facilitate possible tours.

• Looking ahead to 2013:
The Colorado Disability Mentoring Committee is looking forward to renewed statewide outreach to establish new job shadow and tour activities. We are also piloting a new initiative called Neighborhood Works designed to facilitate work, job shadow, intern, and other experiences for young people as they transition from middle school to high school and beyond so that they are more prepared for work!
